

Biruk Addis

Fullstack Developer

✉ birukaddis4708@gmail.com 📍 Addis Ababa, Ethiopia  LinkedIn  Github

PROFILE

Full-stack software engineer with 3+ years of professional experience building and shipping production-grade web applications across diverse domains and tech stacks. Proficient in Next.js, PostgreSQL, and Redis for end-to-end application development. Experienced in reading and contributing to existing codebases, authoring deterministic test suites, debugging production issues, and delivering well-documented, reproducible software solutions. Comfortable owning the full stack from schema design and containerised infrastructure through to server-rendered UI.

PROFESSIONAL EXPERIENCE

Helios Digital

12/2025 – 02/2026

Software Engineer

USA

- Built and maintained project management platform using
- Implemented Redis-based caching and session management, reducing average API response times by 40% on high-traffic pages.
- Integrated AI services into React, Next.js, React Native, and Node.js applications.
- Maintained and debugged CI/CD pipelines (GitHub Actions), resolving build failures and environment-specific regressions in staging and production.

Future AI

11/2025 – 05/2026

Fullstack Developer

USA

- Built AI-powered web and mobile applications by integrating LLM APIs into products across React, Next.js, React Native, Node.js, and Flask.
- Developed intelligent chat assistants, content generation tools, and workflow automation features that improved user productivity and engagement.
- Collaborated across the full stack to seamlessly connect AI services with modern frontend and backend systems, while optimizing React and Flask integrations to reduce average page load times by 40%, resulting in a faster user experience and improved user retention.

Stacklane Inc

02/2024 – 10/2025

Fullstack Developer

Addis Ababa,
Ethiopia

- Joined an existing React and Node.js codebase mid-development, quickly onboarded, diagnosed legacy architectural issues, and shipped performance improvements
- Added integration tests to previously untested API endpoints, catching two critical regressions before production deployment.
- Wrote Bash scripts automating database migrations, environment setup, and deployment steps across servers

SKILLS

Languages

TypeScript · JavaScript · Python · PHP · Bash

Frontend

Next.js (App Router, SSR, API Routes) · React · Tailwind CSS · Shadcn UI

Backend

Node.js · NestJS · Express · REST · tRPC · Django · Flask · FastAPI

Databases

PostgreSQL · MySQL · MongoDB · schema design · query optimisation

Testing

Jest · pytest · React Testing Library · integration & unit test authoring

PROJECTS

TradeTrack Pro

Fullstack Developer

Career progression platform for tradespeople, featuring job board, apprenticeship tracking, and reporting dashboards. Joined an existing codebase, resolved schema design issues, added missing indexes, and shipped new Next.js features while maintaining backward compatibility.

Next.js · PHP · MySQL · React Query · Shadcn UI · Docker

EduBridge LMS

Fullstack Engineer

Multi-tenant school and course delivery platform with Stripe billing, progress tracking, and a CMS-backed content pipeline. Delivered with comprehensive documentation and structured handoff to the client engineering team.

Next.js · PostgreSQL · Stripe · Tailwind CSS · Mantine UI

EDUCATION

Software Engineering

Addis Ababa University

06/2020 – 06/2025

Addis Ababa,
Ethiopia
